CONCEPT

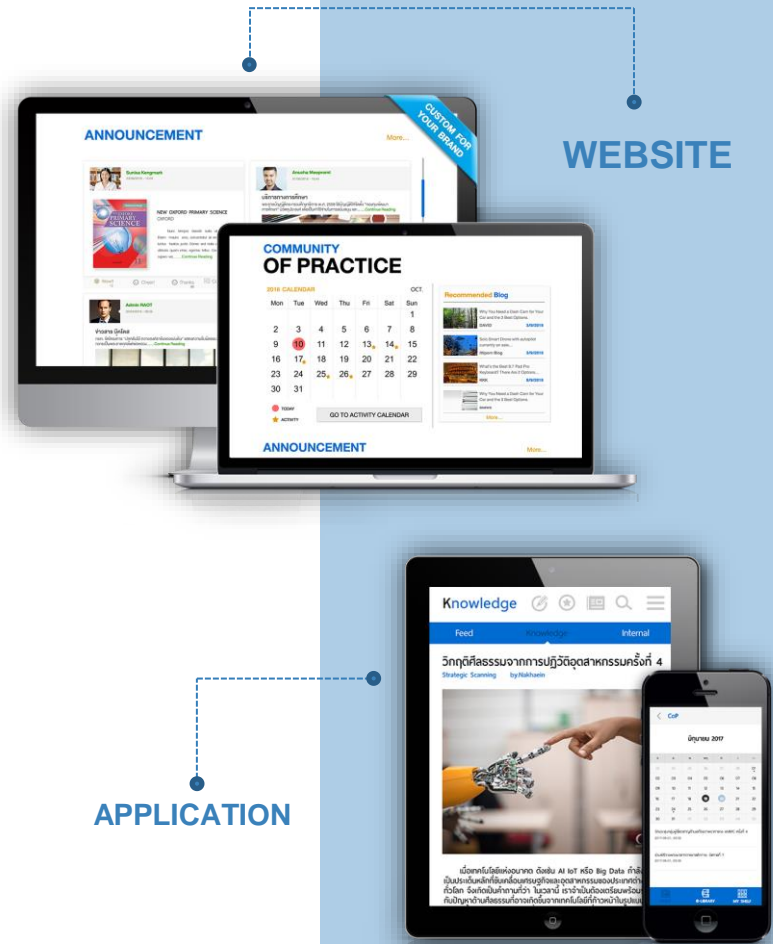

- ▶ **LearnNext** —Not only E-Learning, but this LMS was designed to serve as the “Center of digitalized knowledge”. Compiling organization’s knowledge, both from individuals and documents, into systematic management, the knowledge will be “dynamically” transmitted, using modern technology that suits employee’s lifestyle, ensuring rapid knowledge access anywhere anytime with optimum efficiency.

- ▶ **Designed to serve modern lifestyle** with the system that supports Web App and Mobile App.

Website — As the main channel for overall system management, Website serves online usage on the Internet and Intranet via PC, touchscreen, Tablet and smartphone.

Application — Offering enhanced convenience that serves Offline usage with special features, including notification of learning and deadlines, the Application supports **dynamic** feeding of knowledge. Compatible with both Tablet and smartphone.

MAIN

FEATURES.

Several modern features were designed to benefit teaching and learning, KM tasks, digital inventory and corporate communication.

ASSIGNMENT 1 _____

ASSIGNMENT 2 _____

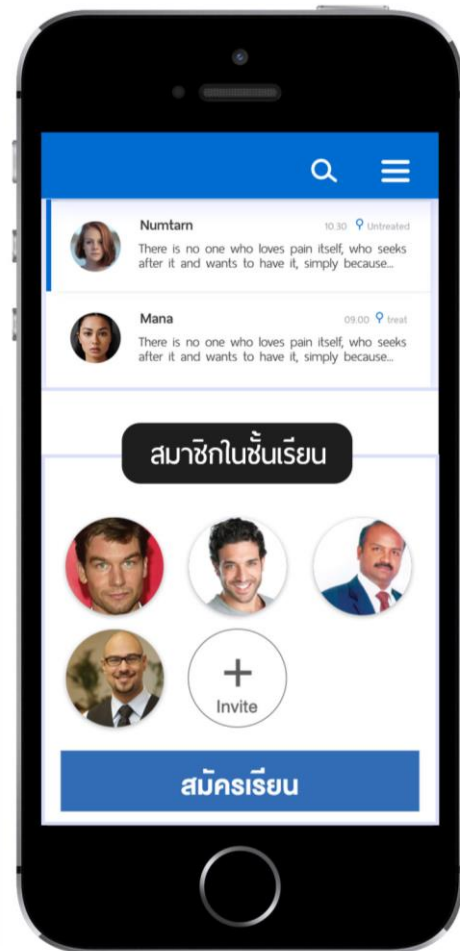

Enrollment System

- Course registration can be processed independently by users. Log-in is easy through Facebook account.
- Instructor can assign a particular staff member to join the course.
- Admin or controller (such as a HR staff) can assign a particular staff member to join the course.

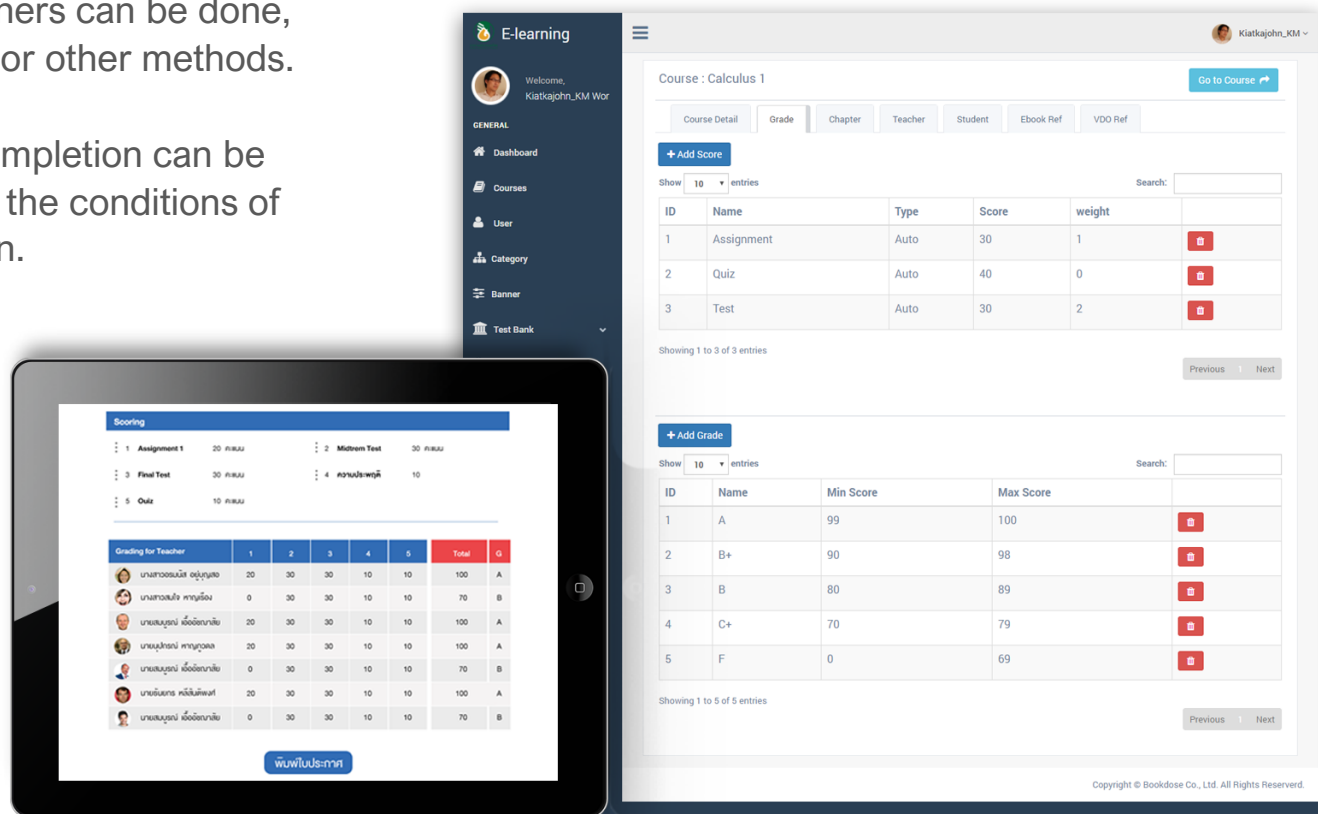

The screenshot shows the 'E-learning' dashboard for a user named Kiatkajohn_KM Wor. The 'Add Student' section for 'Calculus 1' is active, displaying a table of students with their IDs, avatars, names, emails, phone numbers, and status. The table includes 6 entries, with the first 4 having a 'Status' of 'Approved' (green checkmark) and the last 2 having a status of 'Pending' (orange 'Approve' button). A sidebar on the left contains navigation links: Dashboard, Courses, User, Category, Banner, Test Bank, and Push Notify. The bottom of the page shows a copyright notice: 'Copyright © Bookdose Co., Ltd. All Rights Reserved'.

ID	Avatar	Name	Email	Phone	Status
3		suriyasak1 bookdose	suriyasak1@bookdose.com	029600010	Approved

Grading and Assessment

- Evaluation of learners can be done, either by grading or other methods.
- Certification of completion can be issued, basing on the conditions of course completion.

The image displays a user interface for an E-learning system, showing a desktop view and a tablet view.

Desktop View (Right):

- Course:** Calculus 1
- Navigation:** Course Detail, Grade, Chapter, Teacher, Student, Ebook Ref, VDO Ref
- Table:** A table showing assessment entries with columns: ID, Name, Type, Score, weight, and a delete icon.
- Data:**

ID	Name	Type	Score	weight	
1	Assignment	Auto	30	1	
2	Quiz	Auto	40	0	
3	Test	Auto	30	2	
- Footer:** Showing 1 to 3 of 3 entries

Tablet View (Left):

- Section:** Scoring
- Table:** A table showing assessment entries with columns: ID, Name, Score, weight, and a delete icon.
- Data:**

ID	Name	Score	weight	
1	Assignment 1	20	100	
2	Midterm Test	30	100	
3	Final Test	30	100	
4	Quiz	10	100	
- Section:** Grading for Teacher
- Table:** A table showing student scores and grades with columns: Student, 1, 2, 3, 4, 5, Total, and G.
- Data:**

Student	1	2	3	4	5	Total	G
นายสมชาย ใจดี	20	30	30	10	10	100	A
นายสมชาย ใจดี	0	30	30	10	10	70	B
นายสมชาย ใจดี	20	30	30	10	10	100	A
นายสมชาย ใจดี	20	30	30	10	10	100	A
นายสมชาย ใจดี	0	30	30	10	10	70	B
นายสมชาย ใจดี	20	30	30	10	10	100	A
นายสมชาย ใจดี	0	30	30	10	10	70	B
- Footer:** Showing 1 to 5 of 5 entries

E-Testing and Question Bank

- Question Creation and Question Bank are available.
- Difficulty index of tests can be determined.
- Fixed-time testing and automatic answer checking systems are available.
- Adaptive testing system is available.

The interface displays a conversation exercise titled "Conversation 1 (Items 3-5)" with a difficulty level of "MEDIUM". The exercise includes a dialogue between an officer and a traveler, with blanks for answers. Below the dialogue, there are multiple-choice options for the traveler's responses.

On the right, a "Progress" sidebar shows a "Time Left" of 58:49 and a set of five colored buttons (1, 2, 3, 4, 5) representing the items in the conversation.

Below the conversation exercise, a "All questions" section is visible, featuring a search bar and a table of questions. The table includes columns for question number, question text, type, status, total picks, passed, failed, and difficulty.

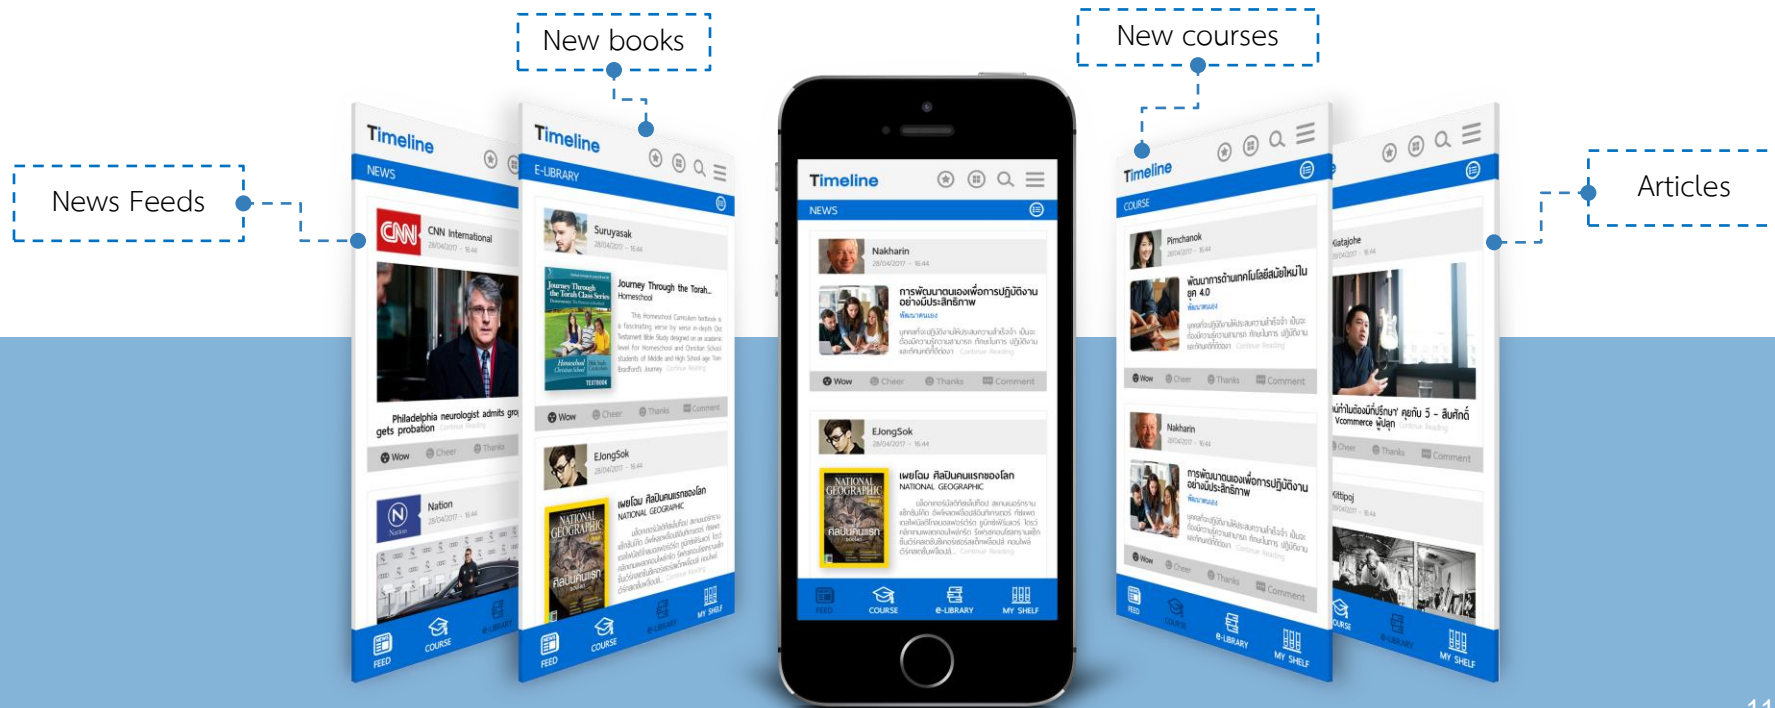

#	Question	Type	Status	Total picks	Passed	Failed	Difficulty
1.	Francisco writes interesting stories for a Peruvian newspaper. He's a famous _____ in Peru.	Text	On	1,527	827	700	Easy
2.	Rachel makes decisions for the government in Australia. She's an Australian _____.	Text	On	414	400	14	Easy
3.	At the custom	Text	On	849	750	99	Medium
4.	People from around the world	Text	On	2,114	381	1,733	Difficult

At the bottom, there are navigation buttons for "Previous", "1" (current page), and "Next", along with a status indicator "Showing 1 to 4 of 4 entries".

Knowledge Feed

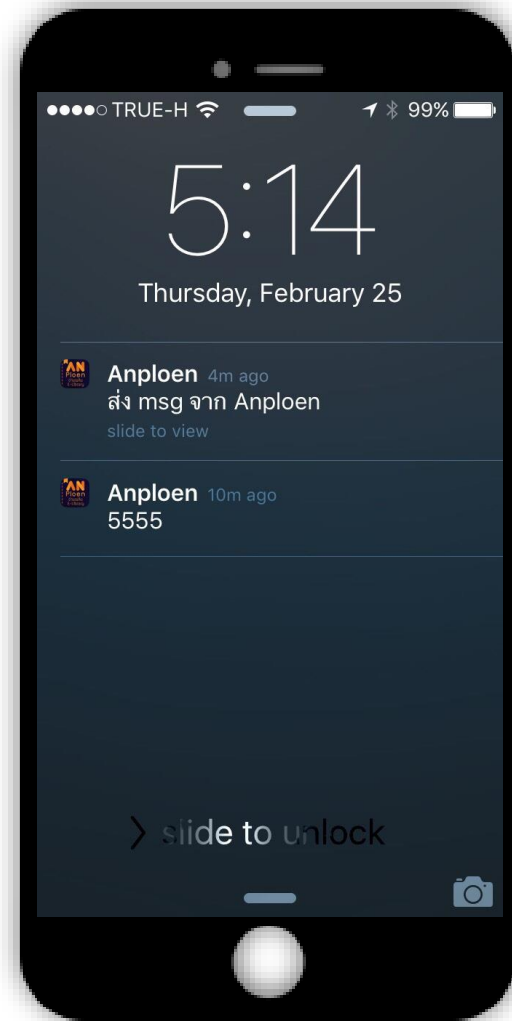

Knowledge feeds in the format of timeline display new courses, new resources, news and knowledge by categories that users have subscribed. Users can search for old contents or filter content categories to feed on their timeline as needed.

Push Notification

Automatic news notification can be sent to users' smartphone instantly, together with automated and manually-generated notifications via E-mail.

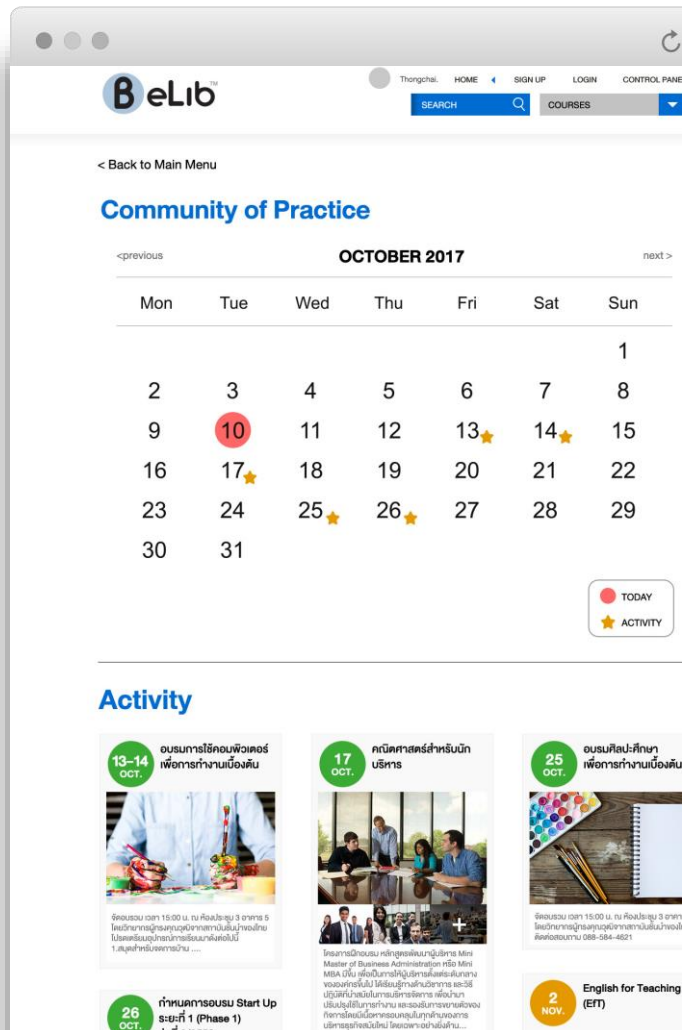

Off-Line Training & Event

Activities and activity details can be scheduled on activity calendar. Invitation can be sent to users. Feedbacks of participation can be utilized.

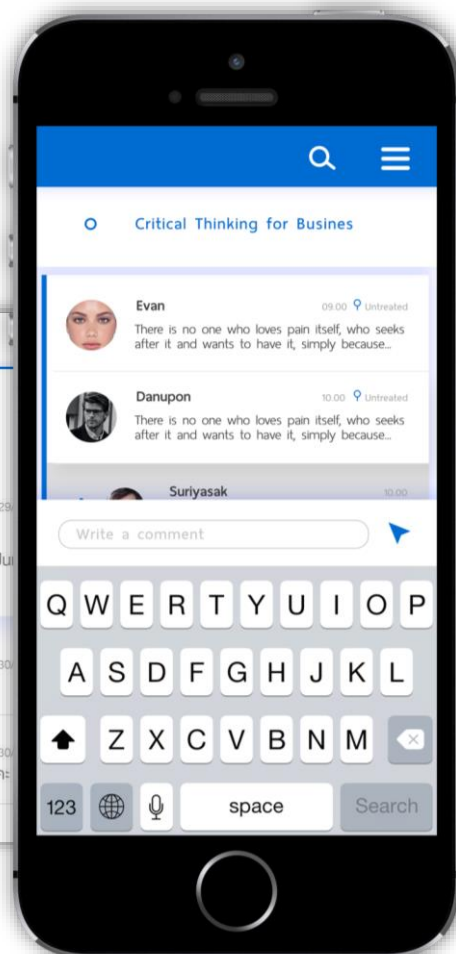

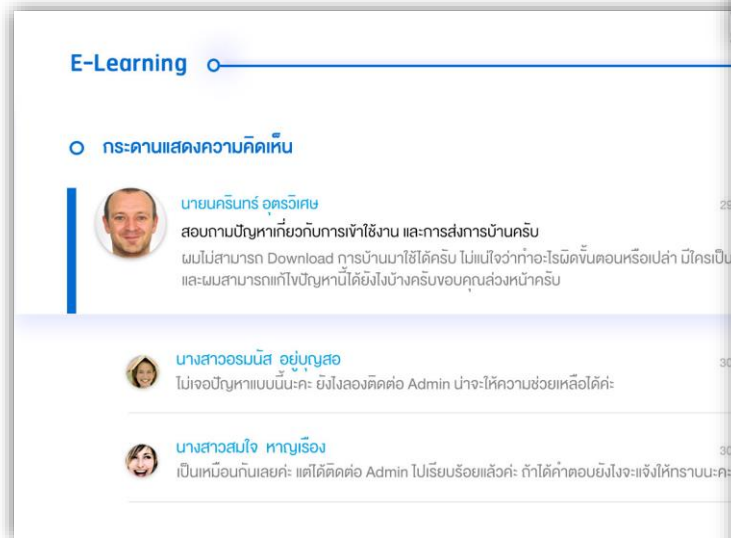

Press JOIN to confirm participation on the App

Chat Box

Chat system is available for each course to facilitate communication between the teacher and learners.

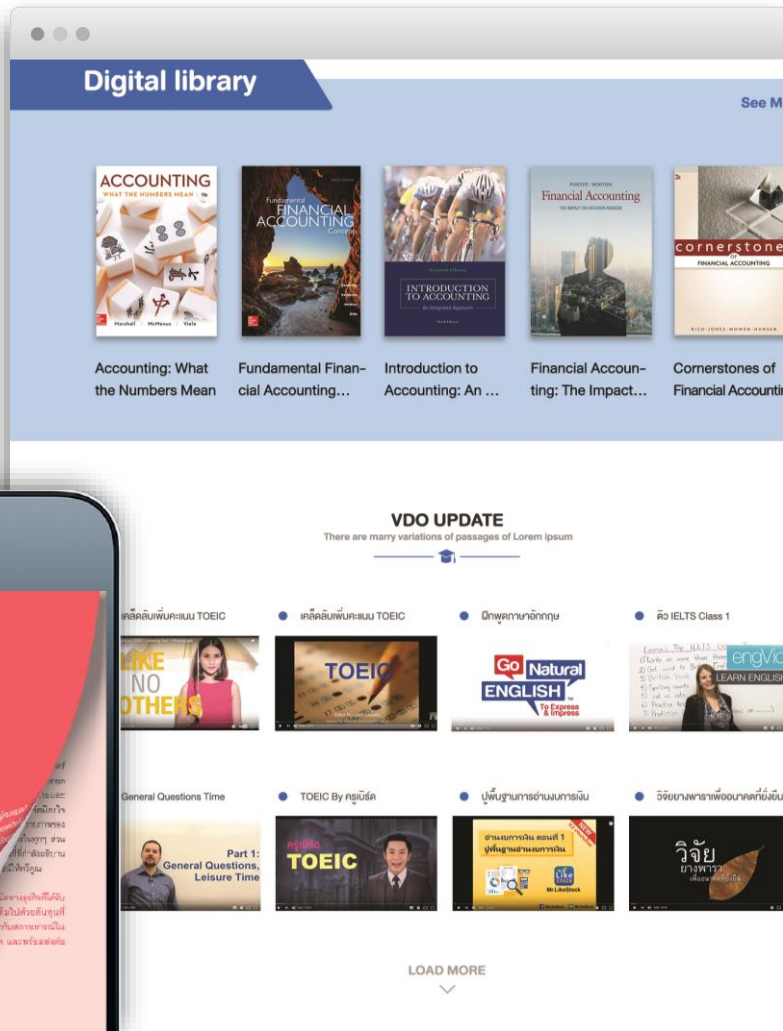

Digital Library

- Serve E-Book borrow/return.
- Benefit the implementation of course creation.
- Serve both Online and Offline reading.
- Serve reading of other file formats, such as Word/Office, PDF and E-Pub.
- Serve E-Books with multimedia.
- Any page on any E-Book can be shared on Facebook/Twitter.

PDF Reader

E-Pub Reader

E-BOOK BUILDER

- E-Book and E-Document Builder on Web Browser (online) is available for Admin with unlimited licenses.
- Building an E-Book or E-Document is easy in just 2 clicks from an original PDF file.
- E-Book for PC and App can be built simultaneously.

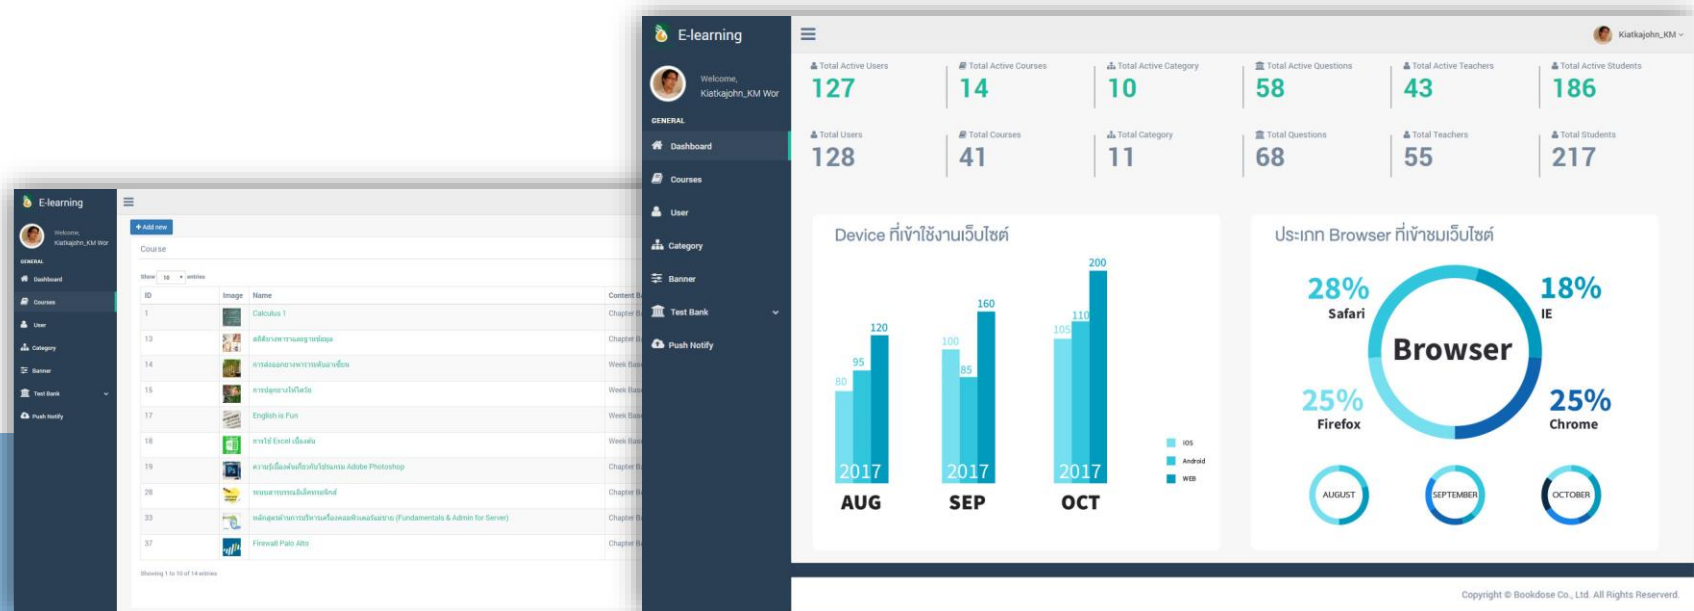

⚙️ Customer Engagement

Customer Engagement allows the system to give points in each engagement, such as review, course completion, e-book reading, book borrowing, etc. Users can redeem rewards with these points.

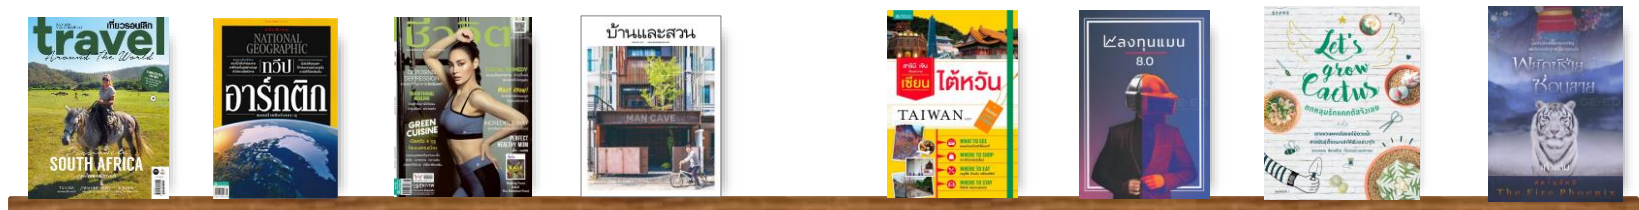

Back-End & Users Report

- Designed to help the Admin manage, build and adjust the system.
- Reports displaying the number of users, user volume, number of media, etc. are available.
- Browsing can be made by periods of time.

CONTENT

Copyrighted contents from leading publishers are available for FREE in the system.
