

DIGITAL KNOWLEDGE CENTER

CONCEPT

Our modern knowledge management system was designed to administer a wide array of media options for knowledge, ranging from E-Book, E-Magazine, physical book, VDO, E-Learning to various forms of digital files, in one sole system.

The entire data will be stored on the Cloud server that guarantees stringent safety and no data loss. Admin and users can access the system through website anytime without the need to install an additional program.

Our service team is prompted to provide advice and solutions to the admin round the clock. Additionally, there is an automatic system upgrade to ensure customers will derive optimum efficiency of the Belib Cloud – the future of book management system.

 **AWARD!**

WINNER

in E-Learning Chapter
Thailand ICT Award 2015

FINAL ROUND

Asia Pacific ICT Alliance Awards
(APICTA Awards) 2015, Colombo
